

ACOUSTIC LIGHTING SOLUTIONS

Eureka has developed a wide range of sound-absorbing products designed to minimize noise while providing an impactful aesthetic.

Multiple solutions are offered in small and large decorative pendants, scalable mural systems, and surface mounted luminaires.

**Tone down the noise.
Turn on the light.**

Acoustic material colors: Plum Purple & Light Beige

Area

Slim profile, high light output, multiple colors, mounting types and even an acoustic option. Area provides designers a wide range of elegant lighting solutions.

Cycle Acoustic

Reduce noise in any space by using Cycle Acoustic luminaires to absorb background sound.

Acoustic material color: Moss Green

Acoustic material colors: Zinfandel, Navy Blue & Banana Yellow

Hex Area

With its strong geometric aesthetics and mounting options, Hex Area can be used as a highlighting element, in series to define a large space, or as a creative wall composition.

Knit

The soft outline and sound-absorbing, thermoformed construction give Knit an organic vibe. The felted texture of the pendant complements its generous, diffused light. Knit conveys a uniquely contemporary feel and the distinctive power cable adds a strong conscious design note.

Matrix

An impressive example of modularity and flexibility, this sound absorbing mural system allows the creation of a colorful mosaic, punctuated with OLED light sources. The luminous modules are movable and can be playfully arranged on the spot with the use of its simple and intuitive magnetic connection.

Mill

Absorb sound in common and public areas with felted luminaires. With multiple sizes, colors and mounting options as well as optional uplight, Mill helps with volume control while adding a stunning design element to the decor.

Acoustic material colors: Azure Blue & Navy Blue

Mute

Mute is a suspension composed of twelve felt acoustic panels. Together, they create a distinctive shape for the shade. The LED light source provides comfortable, diffused light down to the space below.

Node

Original pattern of light can be composed with these warmly diffused and soft to the touch hexagonal shapes. Custom arrangements can be easily created to cover hundreds of square feet in area.

Oslo

Warm and delicate, this large surface sconce features front and back light giving a nicely toned atmosphere to interior spaces. Made from a formed acoustical panel the shape evokes the effect of rippling water.

Quadrant

Quadrant's rounded, interlocking felt fins absorb sound while providing a vibrant look to the lighting. With multiple sizes and colors, and the choice between lit or unlit, designers can mix and match to create dynamic arrangements for various applications.

Acoustic material colors: Blood Orange, Ocean Blue and Battleship Gray
